

Toleap Consulting AB in Jönköping and Shanghai

For the first time representing Toleap Consulting AB we were at two fairs, Elmia and Bauma. Was it worthwhile? We think so, because it is important for our business to make a visible difference.

Elmia Subcontractor, Jönköping, Sweden Nov. 2016

At Elmia we made a lot of new contacts and met many old friends. It was with some nostalgic feeling we visited the stands of SSAB and Tibnor. We will always keep a special place for that company in our hearts and continue to work for SSAB, now-a-days as consultants.

Picture: Elmia, material and the meeting with Andreas Kuoppa, Per Tägtström, Karl-Erik Olsson and Jan Kuoppa after the fair.

We met a lot of the strong entrepreneurs and companies of Sweden, it is impressive when they come together like this. Furthermore, we established a few new contacts from all of Europe and we will hopefully be able to do some business with them already in the beginning of next year.

Bauma, Shanghai, China Nov. 2016

Toleap Consulting AB has its business on the international market. Our target is that China will become a large business for us and now we are starting up a few activities there. One of the first actions was a seminar at Bauma in Shanghai and quite a lot of visits to our future customers and partners. Our representative in China is CM Beijng Capital Metal International Trade Co., Ltd.

Picture: Bauma Shanghai, a large fair, our seminar and the customer visits were done in good spirit and we are very optimistic concerning our future in China.

In China, we intend to run hands-on customized training programs, offer our extensive services and cooperate with a network of partners to improve our total competitiveness. This is a big commitment for us. All these activities are big efforts for us being a newly started relatively small company with limited financial resources. However, to leap means to be brave, to dare to take the step that will lead to success. To leap is to increase, improve and grow. So, we'll go for it!
