

## Toleap Consulting AB appointed as senior advisers for MANUFACTURINGGUIDE

Manufacturing Guide contains a lot of useful information about production methods, practice and material knowledge. It is a tool for product development and projects about production efficiency. Furthermore, it gives access to a network of experienced and knowledgeable experts.

*production processes, product development, business development and our international network.*

*Picture: Development is done in cooperation with and support from academy, institutes and industry*

The ambition is to create a meeting place for manufacturers and leading technology expertise for knowledge and experience exchange.

*- Our idea of supporting those who work with product development and production is now starting to find its basic form and will be further developed with broader and deeper content and intelligent features, says Hans Bergmark, founder of Manufacturing Guide together with Jessica Bergmark.*

*- Toleap Consulting's, expertise and good will to contribute to the development is vital for our success. Per and Jan will be surely give a valuable contribution in the planning, knowledge content, development and quality assurance of the Manufacturing Guide, concludes Hans.*

The best of it is that Manufacturing Guide is all for **free** for the users! Register here: [www.manufacturingguide.com/sv/user/register](http://www.manufacturingguide.com/sv/user/register)
