

## ***New Designer at Hallbyggarna Jonsereds AB in Falun***

The vacancy described in our previous newsletter is now appointed. Johan Åkerström started his new job now in June.

*- My name is Johan, I am 24 years old and I live with my partner, our three rabbits and a cat called Thor, says Johan. I am a trained civil engineer and have previously worked as an environmental consultant. I think it will be very interesting and fun to try something new and to get new contacts.*

Hallbyggarna Jonsereds AB in Falun*

*- Welcome and good luck, Johan!  
Strengthening the in-house- capacity of design and structural calculation at Hallbyggarna will enable Hallbyggarna to develop their products in a higher pace, says Jan Kuoppa, Toleap Consulting AB, working as designer for Hallbyggarna and now introducing Johan to his new tasks.*

Johan will work e.g. on analysing the designs and optimizing them in terms of capacity and weight within the framework of the regulations and customer demands.

## ***Have a great summer!***
